Issues discussed in papers included in this volume of Economic and Environmental Studies are miscellaneous. First article by Katarzyna Boczkowska and Konrad Niziołek describes determinants of management systems implementation according to own study results. Then Małgorzata Niklewicz-Pijaczyńska presents the role of the patent system in the internationalization of the diffusion of technical knowledge. Finally Edyta Iwona Piątek outlines economic and legal aspects of personal bankruptcy. She points the economic aspects of legal solutions provided in the new regulations for indebted natural persons.
